ALSTROEMERIA 2023

NEW
2023

INTENZ SALMON

ROBUST, RELIABLE AND RADIANT IN THE VASE

Our Alstroemeria varieties are true eye-catchers. In our breeding we focus on robust varieties with outstanding production. More and more varieties are hybrids with good virus resistance and heat tolerance. This makes them extremely reliable during the cultivation process. Reliability is also a priority in an earlier stage: in producing our starting material, we work in a virus-free environment from start to finish. This guarantees that all our starting material is clean and predictably good.

LARGER FLOWERS

It goes without saying that we never compromise on looks. On the contrary, our Alstroemeria breeding is increasingly focused on larger flowers and more flowers per stem. Beautiful to look at and true eye-catchers in bouquets. With so many different colour shades in our range, you can respond to seasons and trends all year round. Our varieties have an outstanding vase life: all flowers open fully, so the consumer can go on enjoying a colourful, radiant bouquet of Alstroemeria.

A SUSTAINABLE PRODUCTION PROCESS

Growing Alstroemeria has little impact on the environment. Not only you do not need a lot of energy input (heat and light) for an optimal cultivation process, but Alstroemeria is also not particularly susceptible to viruses and diseases. So you can keep your use of crop protection products to a minimum, and where you do need to use them, they can be 90% biological.

PERFORMANCE

In this catalogue you will find an overview of the available varieties. But which varieties are right for your cultivation method? To ensure we give our customers the best possible advice, we test all our varieties at different locations across the globe. So we know how they perform in a very wide variety of conditions. That's valuable information that we want to share with you so that you can make the right choice.

To find out more, or if you have any questions, please get in touch.

SNOWTIME™
ZALSASNO

Main colour: White
 Productivity: High
 Stem quality: Moderate
 Height: Moderate
 Heat tolerance: Moderate
 Flower size: L
 ALMV resistance: High resistant

VIRGINIA™

Main colour: White
 Productivity: Moderate
 Stem quality: Moderate
 Height: Short
 Heat tolerance: Good
 Flower size: L
 ALMV resistance: High resistant

WHITNEY™
ZALSANEY

Main colour: White
 Productivity: High
 Stem quality: Moderate
 Height: Moderate
 Heat tolerance: Excellent
 Flower size: XL
 ALMV resistance: Intermediate resistant

WINTERFELL™
ZALSAWINT

Main colour: White
 Productivity: Moderate
 Stem quality: Good
 Height: Moderate
 Heat tolerance: Good
 Flower size: XL
 ALMV resistance: Intermediate resistant

LIMELIGHT™
ZALSALIGHT

Main colour: Yellow
 Productivity: Moderate
 Stem quality: Good
 Height: Tall
 Heat tolerance: Excellent
 Flower size: M
 ALMV resistance: Intermediate resistant

LEMON™
ZALSAMON

Main colour: Yellow
 Productivity: Excellent
 Stem quality: Moderate
 Height: Short
 Heat tolerance: Excellent
 Flower size: M
 ALMV resistance: High resistant

SOLANGE™
ZALSASOL

Main colour: Yellow
 Productivity: Moderate
 Stem quality: Good
 Height: Moderate
 Heat tolerance: Excellent
 Flower size: M
 ALMV resistance: High resistant

SUNNY LADY™
ZALSASULA

Main colour: Yellow
 Productivity: Moderate
 Stem quality: Moderate
 Height: Moderate
 Heat tolerance: Moderate
 Flower size: L
 ALMV resistance: Susceptible

SENNA™
ZALSASENAN

Main colour: Yellow
 Productivity: Excellent
